

Hieroglyphic cube  
found 27 September 1920

Cube measured  $4^{\prime \prime} \times 4^{\prime \prime} \times 4^{\prime \prime}$   
with hieroglyphics legible on 2 sides.  
Composition: Nummulitic limestone.

Hieroglyphics on cube  
match the symbols from  
pottery shard.

Deciphered symbols  
support the 'First Pyramid'  
hypothesis.
